The purpose of the Chicago Parent Program is to help parents be the best parents they can be and, in the process, promote healthy development in their children. We do this by:

- 
- Helping parents clarify what they truly value as a parent.
 - Helping parents identify the behaviors they want to reinforce in their children.
 - Providing a range of strategies parents can use to reinforce those behaviors and advance their childrearing goals.

The Chicago Parent Program

Parenting workshops are the result of a partnership between Easterseals, Oak-Leyden and the Collaboration for Early Childhood. Sessions are delivered by trained group leaders from Easterseals and community partners. Workshops represent an effort to give parents and caregivers the skills and tools to help them be their child's first and most important teacher.
